(54) PROGRAM DEVELOPING DEVICE FOR PROGRAMMABLE CONTROLLER AND PROGRAM DEVELOPMENT BACKUP RECORDING MEDIUM

(57)Abstract:

PURPOSE: To reduce the time and labor needed for production and editing of a program that is used for control of a display device connected to a programmable controller.

CONSTITUTION: A personal computer system 1 is used to a programmable controller 40 which can be connected to a display device 42 that can display plural pages. Then the system 1 is provided with an output control program production means, and a correspondence table production means, and a display control program production means. In such a constitution of the system 1, a 1st control procedure program is produced for control of the output of the controller 40 together with a table 100 where the corresponding is secured between the input contacts and their display of a control procedure program. Then a 2nd control procedure program is produced based on the table 100 for control of

the display of the device 42.
